Re: Annual Report of Township Roads for 2012

Dear Trustees:

It's that time of the year again. Enclosed is a copy of the above referenced report for your township. Please review and update this report as necessary. If you have additional streets that need to be added, please list them and provide the background information required by ODOT to show these roads have been accepted by the Township. The Ohio Department of Transportation (ODOT) will assign a number to the new roads.

Your prompt attention in getting these forms back to us will help us make sure we give ODOT correct information. ODOT will be in our office in November and if you can return these forms to us before then, it would be very helpful.

This letter is also your reminder that the **Equipment/Office Inventory Reports are due** in our office by **Monday, January 14, 2013**. Your computer generated forms are acceptable in our office.

As always, thank you for your cooperation and assistance in meeting these deadlines. Should you have any questions or require additional information, please do not hesitate to contact this office.

Sincerely,

Craig Gillespie
Engineering Technician
